# CHINA OUBAO

OUBAO, was established in 1987, focused on door control products more than 38 years.

The company covers an area of 106,000 square meters, as well as a floor space of 150,000 square meters, 500 employees, with an annual output of 6 million door closers and 1 million locksets, OUBAO manufacture door control products in strict accordance with the American standard ANSI156,4 Grade 1, European standard EN1154,EN1634 and UL228, UL10.C International standard, 80% of the products were exported to oversea market.

OUBAO was main drafter for Chinese Door Closer National Standard QB/T2698, Floor Spring National Standards QB/T2697. OUBAO obtained more than 150 national patents. The OUBAO laboratory for door control products was established in 1988, R&D center was established in 1998, OUBAO company was rated as "National high-tech and new technology enterprise" In 2010; The laboratory was rated as "National high-tech enterprises at the provincial level R&D center" in 2011, the laboratory passed the "China National Accreditation Service for Conformity Assessment "(CNAS) in 2012, the laboratory passed Intertek international testing satellite program approved in 2016.

Professional, Honest and innovative is our motto, Oubao's vision is to be a respected successful, leading door control company.

# **Technical Strength**

OUBAO with strong R&D team, Authoritative National Accreditation Testing Laboratory, Technical advanced production workshop

WarringtonFire test

UL Certificate: File no. R15839, SA44785, R39033,R40703, R41011

**CE Certificate** 

Satellite Lab of Intertek

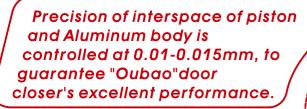

OUBAO as Main Drafter of QB/T2697-2024 Standard of Floor Spring

OUBAO as Main Drafter of QB/T2698-2024 Standard of Door Closer

BHMA/ANSI 156.4 Test

All of "Oubao"Door Closer body must be treatedby:centralized smelting, fully automatic die casting, dozens of precision machining

Adopting advanced

automatic digital

control equipments.

The picture is

machine shop.

Latching Speed Valve

Closing Speed Valve

Delay Action Valve

Adopting top quality Aluminum alloy raw material, under the advanced technology of Die-Casting, Oubao HIGH STRENGTH door closer's body is very compact in construction, which contributes for non oil leakage, noncorrosive, high durability.

The picture is the scene for Die-Casting Machine.

High Strength Spring, Oil-tempered steel, supply enough power to close the door even after 2 million cycles.

Needle Bearing Installed For Super Smooth Operatipon & High Efficiency

The machine that automates the processing of pistons, ensures the stability of quality while increasing the output.

Before Assemble, All components have been supersonic cleaned, to ensure cleanness inside. The picture is the scene for supersonic:cleaning.

### Application & Function

### **Oubao Door Closer**

### **Oubao Door Closer applicable for**

Width of door: not more than 1600mm
Weight of door: under 300kg
Opening angle: most extension 180°
Stye of door: security door, fire door, house door.etc

### Choose the door closer model: according to the door weight and width

POWER SIZE	DOOR WEIGHT(kg)	DOOR WIDTH (mm)	INSTANCE
1	15~30	<750	Rest room door
2	25~45	850	Office door, wooden fire door, stainless steel fire door
3	40~65	950	Steel security door, meeting room door
4	60~85	1100	Steel security door
5	80~120	1250	Heavy steel security door
6	100~150	1400	Heavy steel security door
7	120~180	1600	Heavy strong door, garage door, large special door

### Standard Finish: Silver Special Finishes

### The way of Installation

Every model could be installed by these four ways.

Accessories are needed for the parallel Arm Installation and Slide Arm Installation

### Advanced function of Oubao door closer:

- Build-in hold function: stop at 75°
- Dual valves, closing and latching speed controlled by two separate regulating valves.
- Two speed valves: Closing speed valve 180°-15°, Latching speed valve 15°-0°
- Back check function: provide a temporary resistance between 70° to Maximum opening angle in door opening cycle to help prevent damage to door and or wall in case of the door opens with excessive force

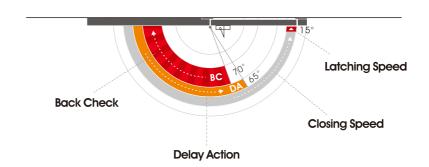

**Delay Action:** an added adjustment to delay the door closing from maximum opening down to approximate 65°, convenience for the handicapped and elderly

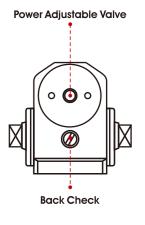

**Barrier Free:** meet ADA regulation engineered with reduced spring power to provide easier opening for handicapped and elderly

### The angles for the functions

Closing Speed Adjustable

Power Adjustable Valve Clockwise: increase power Counterclockwise:decrease power

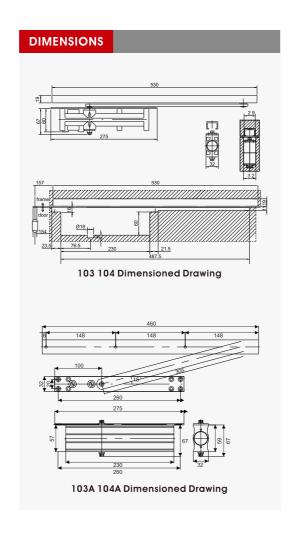

### **Door Closer**

# 

# **100 SERIES**

- Concealed Overhead Closer, "invisible"door closer
- 103 Type meet UL standard, with CCCF certified
- Precise Aluminum Body with Needle Bearing
- Adjustable Closing & Latching Speed
- Closer body 32mm Thickness. Non Handed Installation
- Slide Tracking arm with hold-open function

### **Door Operator**

# 

# **ESL-DOOR HOLDER** ELECTRIC SLIDE ARM DOOR HOLDER

Combine heavy duty closers, the electrically controlled hold-open Slide arm to control fire and smoke barrier doors.

Designed to hold swinging doors open in normal use and release and automatically close the doors under fire conditions.

24V DC or 110V-120V AC input

When current is interrupted, hold-open releases and door closes  $% \left( 1\right) =\left( 1\right) \left( 1\right) \left($ 

Can be pushed safely and easily out of hold-open

Functions as full rack and pinion door closer when hold-open is not engaged or current is interrupted,

### Below is our OB03 Door Closer Feature:

Adjustable hydraulic backcheck cushions opening swing prior to 90°Separate regulation of general closing speed and latching speed High strength cast iron cylinder Forged steel main arm and piston

### UL Certificated, File No. R39033

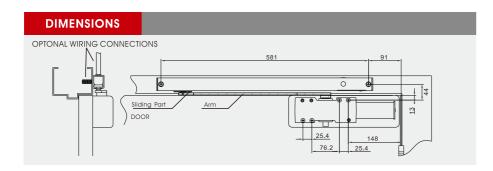

### ESL-OB03

Note: After installation, please don't put the arm on the sliding part. Check first if the arm is parallel to the frame and won't touch either the door or the assembly of the sliding part in movement.

Product Size	606x32x36mm
Current	80mA
Voltage	DC 24V
Linkage Function	Working state power supply DC24V, power off automatically release
Feedback Function	Normally open or normally closed signal feedback
Installation method	Standard installation, door frame installation, concealed installation

### Application areas

The entrance of shopping centre, Bank, hospital, office building, airport or house, suitable for single direction opening of single or double 90 degree swing door.

### • Brushless motor

DC 24V brushless motor, with small volume and high power, reduction gearbox adopts a precision gear structure with multi-stage transmission and smooth operation.

### • Adjustable power

Intelligent power control for slow start and slow stop, with adjustable door opening and closing speed, stopping time, and pressing force.

### INSTALLATION WITH LINK ARM

### Multiple combinations

Can be combined with access control machine, sensor device, and electric lock for access system.

### • Intelligent discernment

The Intelligent discernment function is activated when the doorset leaf meet obstacles, and the drive operates in reverse to protect people or objects.

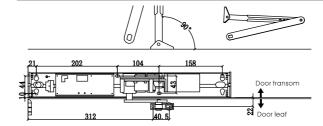

### Visual UI

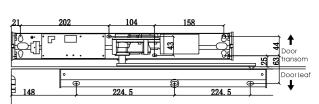

0.96 inch display screen, visualized function selection menu, easy to set up and install.

### **INSTALLATION WITH SLIDE RAIL**

### **CROSS BAR RIM TYPE 331**

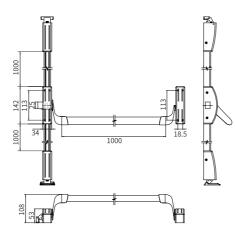

\* There are exclusive agents for 331/332/333 in certain markets. Please consult your sales consultant before purchasing

### **CROSS BAR VERTICAL TYPE 332**

- Material: Metal and Zinc Alloy
- Non-handed
- Finish: Black Painted Body, Red Tube or Grey Body & Tube

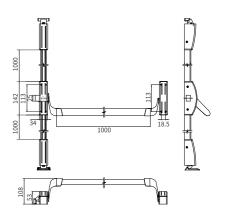

- Finish: Black Painted Body, Red Tube or Grey Body
  Tube Length: 1000mm
  Upper and Lower Tube: 1000mm
  Max Door Height: 2200mm
  Vertical Type, Two Lock Points.
  Popular on Narrow Width Alum-Frame Glass Door
  Fixed with #012 or #008 Outside Trim Lock
  Optional: Aluminum Extraded Soctions Tube Cove
- Optional: Aluminum Extruded Sections Tube Cover

### **CROSS BAR THREE POINTS LOCKING TYPE 333**

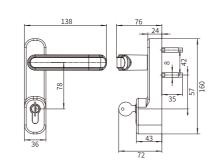

- Material: Metal and Zinc Alloy
- Non-handed
- Finish: Black Painted Body, Red Tube or Grey Body & Tube
- Tube Length: 1000mm
- Upper and Lower Tube: 1000mm
- Max Door Height: 2200mm
- Bolt: Zinc
- Vertical Type, Three Lock Points.
  Popular on Narrow Width Alum-Frame Glass Door
  Fixed with #012 or #008 Outside Trim Lock
  Optional: Aluminum Extruded Sections Tube Cover

### **OUTSIDE TRIM LOCK FOR 330 SERIES**

# **#012 LEVEL TRIM LOCK** • Zinc Alloy Body Alum Level Cylinder Size: 40mm Brass Cylinder Three Brass Keys Max Door Thickness: 75mm

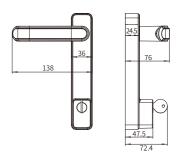

- Work with Cross Bar Panic Exit Device 331,332&333

### **DK-008 LEVEL TRIM LOCK**

- Zinc Alloy Body Alum Level
- Cylinder Size: 40mm
- Brass Cylinder
- Three Brass Keys • Clutch Function
- Max Door Thickness: 75mm
- Work with Cross Bar Panic Exit Device 331,332&333

### **CROSS BAR RIM TYPE DK350 SERIES**

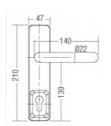

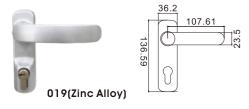

- Stainless Steel material, Esthetical design
- Slight pressure on device touch bar will retract latch for immediate exit
- A lateral lock point. Stainless Steel latch
- Non-handed, suit for LH or RH doors
- Oval shape horizontal bar.Standard:900mm
- DK-350P: Steel Material, Painting finish
- DK-350S: SS304 Stainless Steel

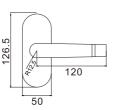

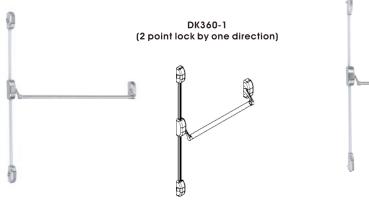

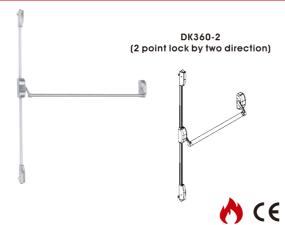

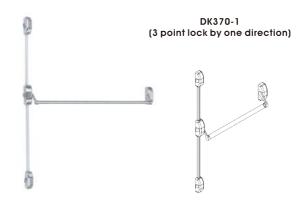

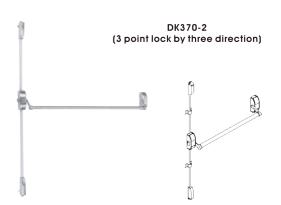

### **CROSS BAR VERTICAL TYPE DK360 SERIES**

### **CROSS BAR THREE POINTS LOCK DK370 SERIES**

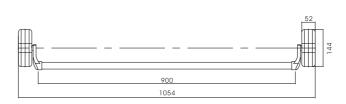

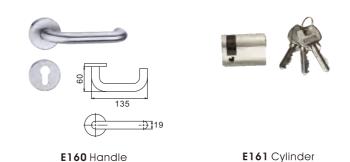

### **CROSS BAR MORTISE TYPE DK380 SERIES**

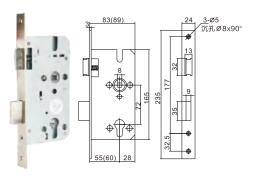

DK 380(lock by mortise lock)

- Easy install on wooden, hollow steel doors
- Suitable for Mortise lock body CF56
- Non-Handed, suit for both right hand and Left hand door.
- Oval shap horizontal bar, Standard:900 MM
- The Square Spindle 8/8
- DK380S: Stainless Steel Material
- DK380P: Steel type, with painting color

Lockbody: CF56
5572SF (RF optional)
6072SF (RF optional)
Suit for DK-1300, DK380 type
Stainless Steel SS201 Material for Face plate,
Striking plate, Latch bolt, Dead bolt,

### **OB-K31 Metal Standalone Access Controller**

	OB-K31
Working voltage	DC12V
Static current	<40mA
Working temperature	-20℃~60℃
Working humidity	10%~90%RH
User capacity	1000
Shell material	Zinc alloy frame, cover PMMA
open mode	card, password, card+password
Card type	125KHZ EM4001 (IC card upon request)
Weigand interface	Weigand26 input
Card reading distance	1-5cm
Size	120*76*27mm

OB-10

	OB-10
Working Voltage	1 2VDC(24VDC upon request)
Starting current	450mA
Sustained current	450mA
Working humidity	10%~90%RH
Feature	Power off to unlock (Fail safe)
Time delay adjustment	no
Scope of application	Glass doors, wooden doors, metal doors, fire doors
Working temperature	-20℃~55℃
Induction distance	≥10mm
Open Angle	180°
Signal Output	no
Bolt	Stainless steel 15mm throw
Product Size	203*34*40mm

### **OB-K33 Single Door Access Control Machine**

OB-12

	OB-12	
Working Voltage	12VDC ~ 24VDC	
Starting current	12V/900mA,24V/600mA	
Sustained current	12V/90mA,24V/60mA	
Working humidity	10%~90%RH	
Feature	Power off to unlock (Fail safe)	
Time delay adjustment	Os. 2.5s. 5s. 8s	
Scope of application	Glass doors, wooden doors, metal doors, fire doors	
Working temperature	-20℃~55℃	
Induction distance	≥10mm	
Open Angle	180°	
Signal Output	Door status signal output (NO/COM)	
Bolt	Stainless steel 15mm throw	
Product Size	203*34*40mm

OB-M158

OB-M159F

### OB-M159W & OB-M159F Series For Fire Door

	OB-M159W 8	& OB-M159F	
Working voltage	DC12V		
Working temperature	-25	°C~60°C	
Holding Force	60KG		
Emergency devices	With emergency switch device		
Feature	Power off to unlock (Fail safe)		
Body Size	69*65*128mm wall suction	85*65*102mm floor suction	
Working current	180mA		
Working humidity	10%~90%RH		
Installation type	Adjustable wall m	ounting, floor mounting	
Application range	Various single-opening or double-opening smoke barriers		
Signal output	Can be customized		
Armature plate size	69*65*52mm		

### **OB-M159G Series For Glass Door**

OB-M159G

	OB-M159G				
Working voltage	DC12V				
Working temperature	-25℃~60℃				
Holding Force	60KG				
Emergency devices	With emergency switch device				
Feature	Power off to unlock (Fail safe)				
Body Size	69*65*128mm wall suction	85*65*102mm floor suction			
Working current	180mA				
Working humidity	10%~90%RH				
Installation type	Adjustable wall mounting, floor mounting				
Application range	Various single-opening or double-opening smoke barriers				
Signal output	Can be customized				
Armature plate size	72*30.5*109.5mm
